

## 1. Download / Install the ByteSize Reader

- a. Click on the ByteSize Reader icon on the Web page you are visiting.

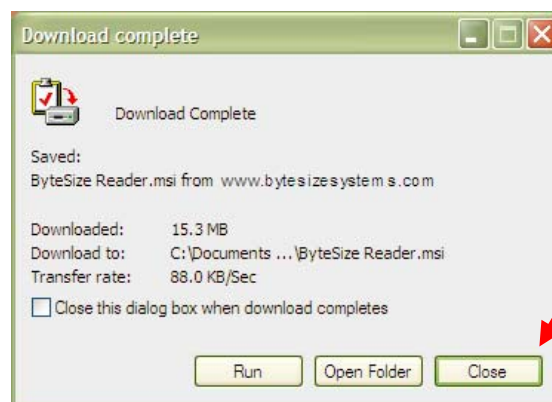

No license is required for the BYTESIZE READER when you purchase a book in ByteSize format with the .brr file extension. If you already have a ByteSize Reader installed on your computer, skip this step and proceed to Step 2 on the next page.

- b. After clicking the ByteSize Reader icon, the following pop-up will appear. Click “Save” (NOT “Run”) and put the installation file on your computer’s Desktop. The file name is *ByteSizeReader.msi*. The file size is 15.5MB.

Click “Save” (NOT “Run”) and put the installation file on your computer’s Desktop.

- c. When the download is complete, the following pop-up will appear. We recommend you click “Close” and continue the installation process from your Desktop.

Click “Close” and continue the installation process from your Desktop.

- d. Double-click the *ByteSizeReader.msi* icon on your Desktop:

The first screen that will appear is a generic warning from Windows. Ignore the warning and select RUN - the ByteSize Reader does not contain viruses or spyware.

The ByteSize Reader Setup Wizard will open and guide you through the installation process. We recommend that you accept the default for installation in your **PROGRAMS** folder with other software programs. When the ByteSize Reader Setup Wizard is finished, close it. The ByteSize Reader is ready to run from your desktop.

## 2. Download a BRR Document

- a. Download the title(s) you want to purchase from this Web site by clicking on a title. We recommend that you **SAVE** the document file to your computer's Desktop. You can move the file later. *If you use Mozilla Firefox as your browser, hold down the ALT key and LEFT click on the file to download.*

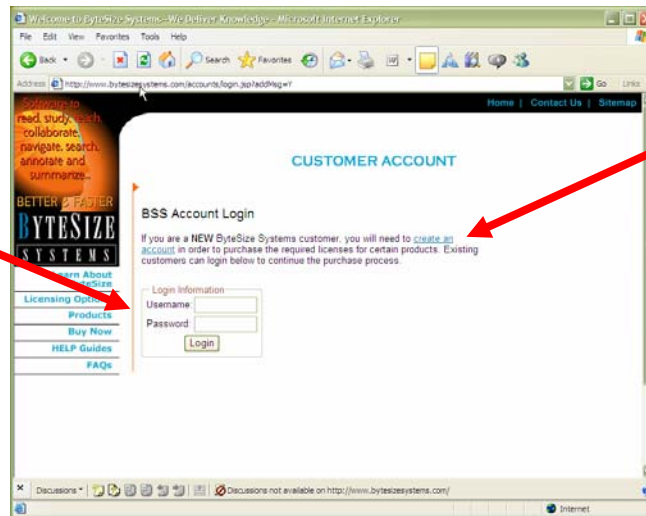

**BRR** content files require a document license to open.

- b. The first time a new BRR content file opens, the ByteSize Reader will check with our Server to verify that you have purchased the appropriate license. Read Steps 3 and 4 to learn how to purchase a document license and activate your product.

## 3. Purchase a License for Your BRR Document

- a. Click **Purchase license(s)** to go to the ByteSize Systems **Customer Account** page. Your account for products in ByteSize Format will be managed and maintained through the ByteSize Systems Web site.
- b. If you already have a ByteSize Systems **Username** and **Password**, enter them into the **Login Information** section on the **Customer Accounts** page. Click "Login," then proceed with Steps e and f below.

Enter your **Username** and **Password** into **Login Information**. Then click “Login.”

Click **Create new account** if you do not already have an account.

c. If you do not yet have a ByteSize Systems **Username** and **Password**, click **Create new account** on the **Customer Accounts** page. You will be taken to an account setup screen.

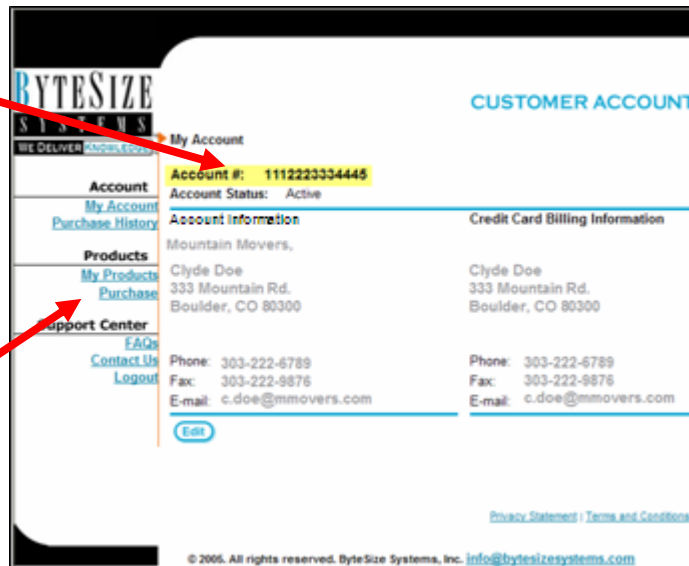

d. Fill in all required fields – *those with an asterisk*. If your **Credit Card Billing Information** is the same as your **Account Information**, click the checkbox found at the top of the **Billing Information** column. Check to be sure that all fields correctly transfer. If your **Account** and **Billing Information** are different, fill in all required Billing fields. When complete, click the **UPDATE** or **COMPLETE** button.

It is important that you provide a valid email address as this is how we confirm your purchase.

If errors occur, follow the prompts at the top of the screen and click **UPDATE** or **COMPLETE** again.

Once your account is set up, the **MY ACCOUNT** page with your account information will display. If not, click **MY ACCOUNT** on the left navigation panel.

Notice the **Account #** highlighted in yellow at the top left of the **MY ACCOUNT** page. If you ever need to retrieve your account number, this is where you will find it.

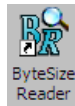

e. Click **PURCHASE** on the left navigation panel. Select the document license(s) you want to purchase and continue through the Check Out process.

When you have completed your purchase, click **MY PRODUCTS** on the left navigation panel. A list of products available to you, including document licenses, will display. Because you downloaded your BRR content file in Section 2, you do not need to do anything with the license you just purchased.

f. When you finish purchasing the required license(s), log out of your ByteSize Systems account using the **LOGOUT** button. It is important to use the **LOGOUT** button to maintain Internet security.

## 4. Activate Account / Open a Document

Launch the ByteSize Reader by double-clicking on the  icon on your Desktop.

- You will be prompted to set your **User name** upon opening the ByteSize Reader for the first time. Select a name that is easy to remember and that will differentiate you from others in your office or others who might use the computer on which the ByteSize Reader is installed. The **User name** you enter in this step will be attached to all of the annotations you create and will stay with those annotations when you send them to other people.
- Open a BRR content file by selecting **Open** from the ByteSize Reader's **FILE** menu. Select the file you want to open. Follow the activation prompts to validate your document license. Be sure you are connected to the Internet the first time you open a new BRR document so the ByteSize Reader can verify that you have a valid account. If the activation process fails, contact [support@bytesizesystems.com](mailto:support@bytesizesystems.com).

## 5. Upgrade to a New ByteSize Reader Release

To upgrade to the latest version of the ByteSize Reader, download and install the *ByteSizeReader.msi* file as described in Step 1. The new installation will retain your product licenses.

Visit [www.bytesizesystems.com/upgrade.html](http://www.bytesizesystems.com/upgrade.html) for instruction in how to remove a version earlier than v1.0.4. Find your version number by clicking "About the ByteSize Reader" under HELP in the ByteSize Reader.
